

Annual Symposium Sponsorship Package

October 30, Chelsea Hotel
33 Gerrard St. W., Toronto

About BioHubNet

BioHubNet is Canada's national talent development initiative focused on building an industry-ready workforce for the biomanufacturing and life sciences ecosystem. Funded by the Canada Biomedical Research Fund (CBRF)—a major federal initiative supporting the country's Biomanufacturing and Life Sciences Strategy—and led by the University of Toronto, BioHubNet brings together academia, industry, and government to accelerate workforce development and strengthen sector capacity.

Three Pillars of Impact

BioHubNet is grounded in three strategic pillars that guide our year-round programming.

「ENGAGE」

Industry-focused training
Networking & Mentorship

「EXPERIENCE」

Industry internships
Academic exchanges

「EQUIP」

Targeted funding support
for trainee-entrepreneurs

About the Symposium

The Symposium is a flagship event that brings together Canada's leading minds in biomanufacturing, research, and innovation – including highly qualified personnel (HQP), industry leaders, academic experts, government representatives, and innovation partners from across the country.

With a strong focus on workforce development, emerging technologies, and building national capacity, the symposium serves as a platform to exchange insights, foster collaboration, and shape the future of Canada's biomanufacturing and life sciences ecosystem.

Empowering Canada's Biomanufacturing Workforce

Symposium Highlights

Expert Panel Sessions – Insights on core industry skills, career pathways, strategic approaches to talent development, and emerging trends shaping the sector.

Interactive Discussion Session – Cross-sector dialogue on innovation, industry-academic partnerships, and workforce development, generating actionable insights.

Professional Development Workshops – Practical training to build skills for the future life sciences and biomanufacturing workforce.

Pitch Competition – Early-stage ventures showcasing breakthrough technologies and entrepreneurial vision.

Why Sponsor?

Sponsorship of the BioHubNet Annual Symposium allows your organization to actively support the growth and innovation within Canada's life sciences and biomanufacturing community.

As a sponsor, this will be an opportunity to:

- Highlight your brand to an audience of industry leaders and future innovators.
- Strengthen your engagement with globally recognized researchers, pioneering entrepreneurs, and key industry stakeholders.
- Showcase your organization's leadership in shaping talent, driving innovation, and advancing Canada's biomanufacturing future.
- Join us in shaping the future of biomanufacturing in Canada, while positioning your organization for high-impact visibility and engagement.

To maximize brand visibility
across all pre-event communications and on-site materials,
we kindly ask sponsors to confirm participation by:

Oct. 20, 2025
